

Fogg stools are pieces with an essential and recognizable design that perfectly embody the values of Yvé: functionality, rigor of lines and comfort. The X shape of the powder-lacquered metal base – a hallmark of this collection – gives it a light visual but of great solidity. The seat is padded and upholstered in leather or fabric. This collection of stools lends itself, like all Yvé products, to be used in different contexts, from residential to contract, from moments of relaxation to those of work.

*For special needs, such as those typical of the contract, it is possible to select different materials and finishes than the collection standard. For the seat, in the same way, it is possible to adopt leather or fabrics in different colors compared to the standard combinations.
